

Speech-to-Text Services: An Overview

Requests for speech-to-text services are on the rise and many service coordinators aren't sure when/if the service is appropriate or how to choose between the many services available. PEPNet-South has created a DVD which provides basic information about the various services and best practices. For more information on how you can schedule a training in your area please contact your PEPNet representative. For a listing of PEPNet outreach staff go to www.pepnet.org.

What's the Difference in Services?

- Typing based vs. Automatic speech recognition technology
- Verbatim vs. Meaning-for-Meaning
- Live vs. Remote
